Raw signals for mirror in beam line

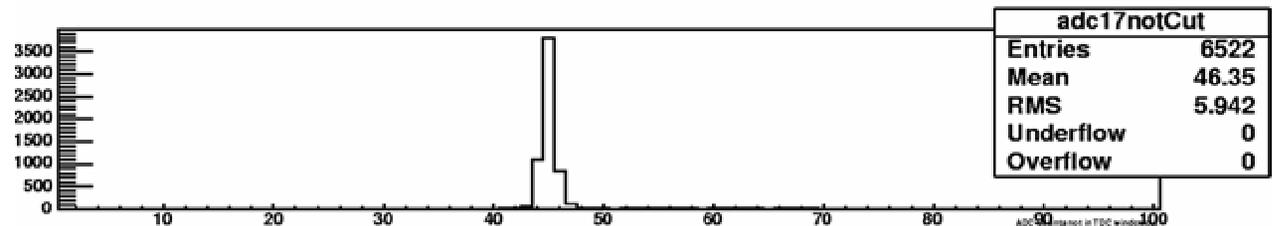

Adc – all events

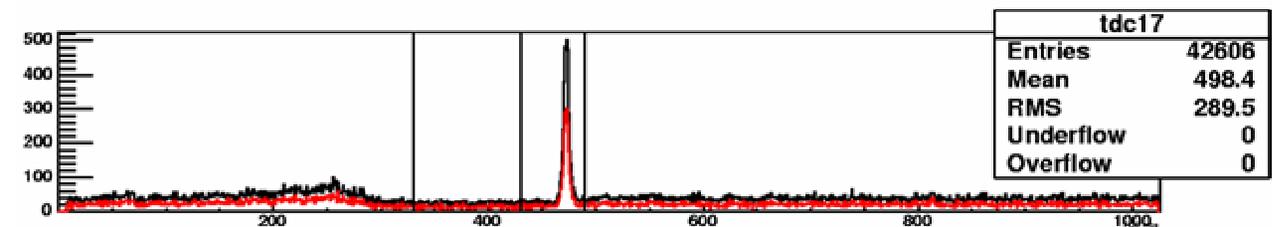

Adc – events w/ Tdc

Adc – No Tdc

Tdc – all events

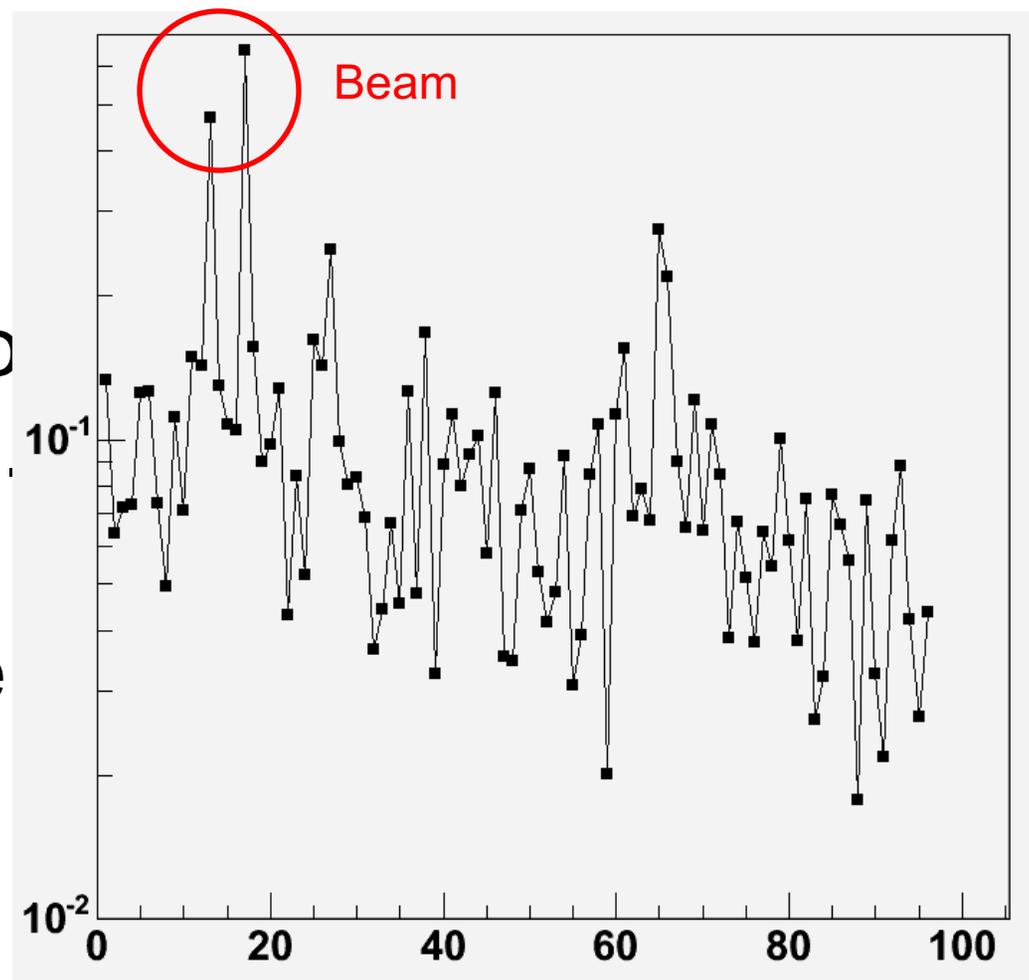

Reconstruction plan (I)

- Complete simulation (Nick Graf)
- Pedestals
 - Complete on 11485-14132 runs
- Dead/Noisy channels
 - First pass complete

Average mirror occupancy

- Long runs between 11485-14132
- No mirror appears to be completely dead..
- Need to incorporate tracking to say more

Mirror number

Pedestal widths: Two noisy channels
